CAR REPAIR SYSTEM

SAFETY DATA SHEET (REACH) In accordance with Regulation (EC) No. 1907/2006 and Regulation (EU) No. 2020/878

QUICK WAX BLACK Code : 5008-001063		
of issue: 04/05/2023	Date of printing: 04/05/2023	

CTIO	N 1: IDENTIFICATION OF T	HE SUBSTANCE/MIXTURE AND	OF THE C	COMPANY/UNDERTAKI	NG				
.1	PRODUCT IDENTIFIER	<u>.</u>							
	QUICK WAX BLACK								
	Code : 5008-001063	UFI: NYWS-81GT-AR03-42M2							
.2		D USES OF THE SUBSTANCE							
	Intended uses (main technical functions): [X] Industrial [X] Professional [] Consumers								
	Anticorrosive wax for the protection of automotive interior body parts and cavities. Sectors of use:								
	Sectors of use: Professional uses (SU22).								
	Types of PCN use:								
	Chemical products: uncate	egorised.							
	Uses advised against:								
	I his product is not recomr "Intended or identified use	nended for any use or sector of use	e (industri	al, professional or consu	mer) other than thos	e previously listed as			
		s . ture, placing on market and use	accordi	ng to Annex XV/II of Re	equilation (EC) No	1907/2006			
	Not restricted.	dare, placing on market and dee	<u>, uooorur</u>			100112000.

SECTION 4: FIRST AID MEASURES

Version: 1

CAR REPAIR System

DESCRIPTION OF FIRST AID MEASURES: 4.1

Symptoms may occur after exposure, so that in case of direct exposure to the product, when in doubt, or when symptoms persist, seek medical attention. Never give anything by mouth to an unconscious person. Lifeguards should pay attention to self-protection and use the recommended protective equipment if there is a possibility of exposure. Wear protective gloves when administering first aid.It can be dangerous to the person giving artificial respiration by mouth-to-mouth (the kiss of life).

	Route of exposure	Symptoms and effects, acute and delayed	Description of first-aid measures				
	Inhalation:	Inhalation of solvent vapours may produce headache, dizziness, fatigue, muscular weakness, drowsiness and, in extreme cases, unconsciousness.	Remove the patient out of the contaminated area into the fresh air.If breathing is irregular or stops, administer artificial respiration.If the person is unconscious, place appropriate recovery position.Keep the patient warm ar at rest until medical attention arrives.				
	Skin:	Prolonged contact may cause skin dryness.	Remove immediately contaminated clothing.Wash thoroughly the affected area with plenty of cold or lukewarm water and neutral soap, or use a suitable ski cleanser.Do not use solvents or thinners.				
	Eyes:	Contact with the eyes produces redness and pain.	Remove contact lenses.Rinse eyes copiously by irrigation with plenty of clean, fresh water for at least 15 minutes, holding the eyelids apart, until the irritation is reduced.If irritation persists, consult a physician.				
	Ingestion:	If swallowed, may cause irritation of the throat, abdominal pain, drowsiness, nausea, vomiting and diarrhoea.	Do not induce vomiting, due to the risk of aspiration.Keep the patient at rest.				
		PTOMS AND EFFECTS, BOTH ACUTE AND DE	LAYED:				
		cts are indicated in sections 4.1 and 11.1

DELAYED AND IMMEDIATE EFFECTS AS WELL AS CHRONIC EFFECTS FROM SHORT AND LONG-TERM EXPOSURE: Routes of exposure

May be absorbed by inhalation of vapour, through the skin and by ingestion.

- Short-term exposure:

Exposure to solvent vapour concentrations in excess of the stated occupational exposure limit, may result in adverse health effects, such as mucous membrane and respiratory system irritation and adverse effects on kidneys, liver and central nervous system.Liquid splashes in the eyes may cause irritation and reversible damage.If swallowed, may cause irritation of the throat; other effects may be the same as described in the exposure to vapours.Very small amounts aspirated by the lungs may cause severe pulmonary damage, including death.

- Long-term or repeated exposure:

Repeated or prolonged contact may cause removal of natural fat from the skin, resulting in non-allergic contact dermatitis and absorption through the skin. Causes damage to central nervous system through prolonged or repeated exposure if inhaled.

	applicable.
CTION 15: I	REGULATORY INFORMATION
5.1 SAF	FETY, HEALTH AND ENVIRONMENTAL REGULATIONS/LEGISLATION SPECIFIC FOR THE SUBSTANCE OR MIXTUP
	regulations applicable to this product generally are listed throughout this Safety Data Sheet.
	strictions on manufacture, placing on market and use:
	e section 1.2
	tile warning of danger:
	applicable (product for professional or industrial use).
<u>Chil</u>	Id safety protection:
Not	applicable (product for professional or industrial use).
OTH	HER REGULATIONS:
Not	available.
Con	ntrol of the risks inherent in major accidents (Seveso III):
	esection 7.2
	er local legislations:
	receiver should verify the possible existence of local regulations applicable to the chemical.
5.2 <u>CHE</u>	EMICAL SAFETY ASSESSMENT:
A ch	nemical safety assessment has not been carried out for this mixture.
CTION 16 :	OTHER INFORMATION
6.1 TEX	KT OF THE PHRASES AND NOTES REFERENCED IN SECTIONS 2 AND/OR 3:
	zard statements according the Regulation (EU) No. 1272/2008~2021/849 (CLP), Annex III:
	25 Highly flammable liquid and vapour. H304 May be fatal if swallowed and enters airways. H315 Causes skin irritation. H336 May cau
drov	vsiness or dizziness. H361d Suspected of damage the unborn child. H373 May cause damage to organs through prolonged or repea
expr	osure. H372 Causes damage to central nervous system through prolonged or repeated exposure if inhaled.
	ALUATION OF THE INFORMATION ON THE DANGER OF MIXTURES:
	sections 9.1, 11.1 and 12.1.
	VICES ON ANY TRAINING APPROPRIATE FOR WORKERS:
	recommended for all staff that will handle this product to carry out a basic training in occupational risk and prevention, in order to
prov	vide understanding and interpretation of Safety Data Sheets and labelling of products as well.
