

EN TECHNICAL DATA SHEET

DESCRIPTION

The EPR 8194 is a lightweight, fast and efficient high performance electric rotary polisher for those large and demanding jobs, designed for professional car polishing. It has a powerful 1050W motor without compromising its light weight of 2.2kg. Its polishing revolutions are between 700 and 2500RPM, and the speed range can be adjusted by means of the potentiometer wheel. It also has a motor stabiliser that offers a smooth and constant rotation. It also has a button to lock the shaft (to replace the plate).

Its ergonomic design will provide a comfortable and convenient handling that will facilitate the polishing work of the operator.
