

EN TECHNICAL DATA SHEET

DESCRIPTION

The EPRO 8121 is a 21 mm orbit roto-orbital electric polisher, designed for precise, comfortable and demanding polishing, especially suitable for precision work, dark colours and removing optical marks and holograms. It is equipped with advanced, leading technology in electronics and gear ratio technology to reduce vibrations and operator fatigue.

The EPRO 8121 polisher is fitted with a multi-hole plate to keep the temperature of the foam pad low and, thus, reduce expansion in the polishing area and also prevent further damage of the pad. EPRO 8121 is equipped with a carbon brush motor. It has been tested under extreme working conditions and overcomes fatigue and stress without difficulty, thanks also to the speed stabiliser which provides a constant speed output. Its ergonomic design makes polishing work easier for the operator.

TECHNICAL SPECIFICATIONS

- Model: EPRO8121
- Input Power: 500W (Mac.750W)
- Input Voltage: 220-240V~ 50/60Hz
- Speed: 2000-4500/min
- Speed level: 6 levels
- With integrated speed stabilizer, Constant output speed, and Soft-Start.
- Backing Plate: standard 148 mm (6")
- Foam/Wool Pad: standard 150mm-180mm (6-7")
- Weight: 2.6kg
- Thread: M8
- Power Supply Cord: 5 meter
- Orbit Size: 21mm
- Size: 421*150*121 mm (LWH), no cable or accessories included
- Color: black and blue

ACCESSORIES

- Wrench x 1
- Spare carbon brush x 1 set
- Side handle x 1
- Foam Pad 7" x2
