TECHNICAL DATA SHEET

DESCRIPTION

Easy Sanding is a lubricant with an improved formula, developed for use with water abrasives in refinishing workshops, used to eliminate imperfections. It optimizes the removal of excess paint, oxidations, and contaminations, taking the sanding process to a new level.

When used together with our Skylon discs, it reduces the temperature during sanding, increasing efficiency and improving the finish.

Additionally, it optimizes the performance of components such as abrasive sponges and decontaminating discs, while reducing friction and temperature during the sanding process. All of this, combined with an improvement in additives, ensures a more pleasant scent.

Thanks to these additives, this new version not only enhances the shine on varnishes and paints, but also offers longer-lasting protection to the treated surfaces.

Easy Sanding is the ideal solution for achieving flawless, brilliant finishes with less effort.

APPLICATION

Apply directly to the surface to be treated and use one of our abrasives:

- F1 SKYLON+ DISCS
- DECONTAMINATING DISCS
- ABRASIVE SPONGES

TECHNICAL DATA

Appearance: Liquid

Color: Transparent blue

Odor: Specific

pH: 5 - 6

Density: 0.975 - 1.025 g/ml

SECURITY INFORMATION

See Safety Data Sheet. For professional use only.

ENVASES DISPONIBLES:

Code	Description	Packaging	Quantity	Un/Bx
2007-001150	EASY SANDING	Sprayer	1L	12
2007-002520	EASY SANDING	Bottle	5L	6
