HE FILL ULTRA GLASS

1 L

5001-001002

TECHNICAL SHEET

DESCRIPTION

HE FILL ULTRA GLASS is an ultra-lightweight polyester filler reinforced with glass fibres, developed for repairs requiring high filling capacity, with application thicknesses of 2 to 4 mm.

Its creamy consistency and low density facilitate application and shaping, even on surfaces with complex geometries. It offers good adhesion and easy sanding, providing a finish suitable for the direct application of primer-surfacer, without the need for an additional finishing filler.

FEATURES

- High filling capacity.
- Creamy consistency for easy application and shaping.
- Glass fibre reinforcement, providing greater mechanical strength to the repaired area.
- Good adhesion to various substrates.
- Hardness compatible with automotive refinishing coatings, facilitating feathering of the repair edges.

APPLICATIONS

Suitable for filling irregularities and repairing large or severely damaged areas on steel, aluminium, galvanised sheet metal and glass fibre reinforced polyester surfaces.

TECHNICAL DATA

Chemical nature	Glass fibre reinforced polyester
Consistency	Creamy
Colour	Yellow
Density	Approx. 1.1 g/cm³
VOC — manufacturer's declaration	2004/42/IIB(b)(250) < 250 g/l

APPLICATION

	Surface preparation: The surface must be clean, dry, degreased and properly sanded to ensure product adhesion.
	Mixing ratio: 2–3% hardener **Pot-life:** 5 minutes
	Application method: Apply with a spreader. **Recommended spreaders** · 2004-001720 SET OF 4 METAL SPREADERS · 2004-001540 WHITE RUBBER SPREADERS · 2004-001620 SET OF 5 PLASTIC SPREADERS
	Air drying 16 - 30' at 20°C
	Recommended abrasives: Hand sanding: P100 - P320 Machine sanding: P120 - P320
