TECHNICAL SHEET

DESCRIPTION

HE WASH PRIMER is a fast-drying, single-component acid etch primer in aerosol form that promotes adhesion and protects metal surfaces against corrosion. Suitable for direct application to properly prepared steel, zinc and aluminium, it provides excellent adhesion to sanded bare metal.

Designed for localised repairs (Spot Repair) and painting individual parts, prior to primer surfacer application. Allows wet-on-wet recoating after solvent flash-off, subject to compatibility with the coating system used. According to the manufacturer, it can also be used as a weld-through primer.

FEATURES

- Ready to use and easy to apply.
- Excellent adhesion and corrosion protection.
- Fast drying and wet-on-wet recoating.
- Suitable for bare metal, fully cured paintwork and primers on replacement parts, provided they are properly sanded and compatible.

TECHNICAL DATA

Type / binder	1K acid etch primer / Nitro-combination
Colours	White, black and grey
Stated coverage	Approximately 1 m ²
Temperature resistance	Up to 90 °C

APPLICATION

	Surface preparation: Completely remove any rust, clean with an anti-silicone degreaser and sand. Remove any residue and degrease again. The surface must be dry and free from grease and dust.	
	Shake the aerosol vigorously for approximately 2 minutes and carry out a spray test. Apply from a distance of approximately 15 cm.	
	Air drying	10 - 15' at 20°C
	Infrared drying	3'

SHELF LIFE AND STORAGE

Shelf life of 120 months when stored in its original, properly closed packaging under suitable storage conditions.

SAFETY INFORMATION

Consult the Safety Data Sheet and labelling for information on hazard classification, handling and personal protection. Dispose of completely empty containers through the appropriate collection system. Aerosols containing residual product must be taken to an authorised collection point in accordance with local regulations. For professional use only.
